

PERSONNEL REQUIITION

Position:	Web Developer	Dept:	IT
Full-time	Exempt	Date:	12/26/2009

This is a Web Developer position. A general design sense would be a plus but is not required. The qualified candidate will be working closely with a small team developing in-house software solutions for a quickly growing and profitable company. This position has a lot of room for growth and added responsibility within the company. The qualified individual will be comfortable handling a fair amount of work and will be able to communicate and meet deadlines alongside the rest of the team.

We are developing really interesting web based software solutions that we feel will have a great potential and directly impact the success of the company as a whole. We have a comfortable work atmosphere and like to give each individual as much freedom and responsibility they can handle as long as we meet our goals.

The typical day will consist of quick meetings to go over our timeline and any additions or alterations that need to be made. Each developer then works on his or her piece of the puzzle. As a Web Developer most of the time you will be working from detailed specs as and screenshots/wireframes. As the position progresses less instruction may be required if the chosen individual shows themselves to be capable enough to make the

Requirements

We are looking for an entry-level programmer with 1-2 years in the required languages. Very little logic creation will be required of the candidate to start and we would welcome a candidate proficient in the required languages but looking to advance their skills.

Languages (1-2 years experience)

- XML, HTML, CSS and Javascript.
- PHP, MySQL

Skills

- Working within a team environment
- Excellent written and oral communication skills

- Strong attention to details and accuracy
- Ability to work independently
- Ability to work in a fast-paced Agile Development work environment

Bonus Skills

The following skills will greatly enhance the candidate's likelihood of being chosen for this position.

- Prototype JavaScript Library
- AJAX Techniques
- Photoshop, Illustrator or equivalent graphic skills
- SVN or CVS
- Working with Excel and/or PDF libraries via web interfaces
- Apache
- Unix Administration
